“Waihi Golf Club-Our Story 1906-2006” an excerpt “ The Ladies. Inevitably the first controversial mention of lady members arises on the matter of catering. There was some indecision as to whether ‘the ladies’ would agree to do the catering if the Club supplied milk, tea and sugar. On the all-male Committee the ‘hardy annual’ of the tea question arose again and caused ‘animated discussion and argument worthy of a better cause’ before the Club agreed to provide tea out of the Club funds, presumably for the ladies to prepare and no doubt offer more substantial fare. The Tea committee was subsequently given a ‘hearty round of applause’ (by the all-Male Committee!) The new clubhouse was opened without a ladies convenience but this was hastily provided a month later no doubt for fear of a retaliatory strike by the catering ladies.”
